DATA CENTERS: BENEFITS & BURDENS

PROCESSING THE IMPACT

20 years in, how data centers changed one town's economy

Byron McCauley
Columnist
USA TODAY NETWORK – MICHIGAN

COUNCIL BLUFFS, Iowa –

When the folks from Big Data eye your town for a hyperscale data center, read their lips when they start talking impact, numbers and benefits.

• Nearly two decades ago, Council Bluffs made a starter deal with Google: tax advantages in exchange for economic investment in the form of 200 permanent, good-paying jobs and millions in tax revenue.

In 2007, Google announced an initial $600 million hyperscale data center on the site of the city's only remaining drive-in movie theater that had operated since 1950. The original building was 100,000 square feet when it opened. **See DATA CENTERS, Page 7A**

Officials say ICE detention plan wasted millions

DHS trying to sell several warehouses it purchased

Trevor Hughes, Irene Wright, Elena Santa Cruz and Ansley Franco
USA TODAY NETWORK

SOCIAL CIRCLE, GA – When federal officials revealed plans for a 10,000-bed immigration detention center in this tiny Trump-loving community, locals had a lot of questions. Among them: How, exactly, are you planning to flush the toilets?

Envisioned as a core part of a network of Amazon-like warehouse "mega centers" housing migrants facing deportation, the building sits at the corner of an industrial park fewer than 50 miles east of downtown Atlanta
