Costs of coverage spike as federal subsidies expire

USA TODAY NETWORK - WISCONSIN

Nearly 290,000 Wisconsinites have signed up for health insurance sold on the marketplaces set up under the Affordable Care Act, as of Jan. 3, according to new data released by the federal Centers for Medicare and Medicaid Services.

That's down from nearly 307,000 who had signed up for health plans sold on the marketplace as of the same time

last year.

The figures are an early look at this year's marketplace enrollment, which is expected to drop, now that enhanced federal subsidies that brought down the cost of coverage under the Affordable Care Act have expired.

Millions of Americans benefited from the subsidies since Congress first expanded them in 2021 following the pandemic, driving costs for marketplace plans even lower and making some Americans eligible for the financial aid for the first time. The enhanced subsi-

dies have been credited with doubling marketplace enrollment, from 12 million in 2021 to 24 million last year.

Last fall, disagreements over the federal subsidies fueled the longest government shutdown in U.S. history, with Congressional Republicans rejecting Democrats' demands to continue the subsidies at their expanded levels.

The enhanced subsidies expired at the end of 2025, when Congress let the tax credits revert to their earlier, less-generous levels.
